

Fund Update

Smartshares Exchange Traded Funds

NZ Bond Fund

For the quarter ended 30 September 2016

This fund update was first made publicly available on 28 October 2016.

What is the purpose of this update?

This document tells you how the NZ Bond Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Smartshares Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The NZ Bond Fund invests in New Zealand fixed interest assets, with the objective of outperforming the S&P/NZX A-Grade Corporate Bond Index over rolling 3-year periods. The investment manager is Nikko Asset Management New Zealand Limited.

Total value of the fund:	\$204,818,426
The date the fund started:	12 November 2015

What are the risks of investing?

Risk indicator for the NZ Bond Fund¹

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://www.sorted.org.nz/tools/investor-kickstarter>

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 30 September 2016. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement for the Smartshares Exchange Traded Funds (**PDS**) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	Not applicable
Annual return (after deductions for charges but before tax)	Not applicable
Market index annual return (reflects no deduction for charges and tax)	5.75%

The market index annual return is based on the annual return for the S&P/NZX A-Grade Corporate Bond Index. Additional information about the market index is available on the offer register at www.business.govt.nz/disclose

What fees are investors charged?

Investors in the NZ Bond Fund are charged fund charges. These are as follows:

	% per annum of fund's net asset value
Total fund charges	0.54%
Which are made up of:	
Total management and administration charges	0.54%
Including:	
Manager's basic fee	0.54%
Other management and administration charges	0.00%
Total performance-based fees	0.00%
Other charges	Dollar amount per investor
Not applicable	\$0.00

Investors may also be charged individual action fees for specific actions or decisions (for example, for initial contributions to the fund). See the PDS for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

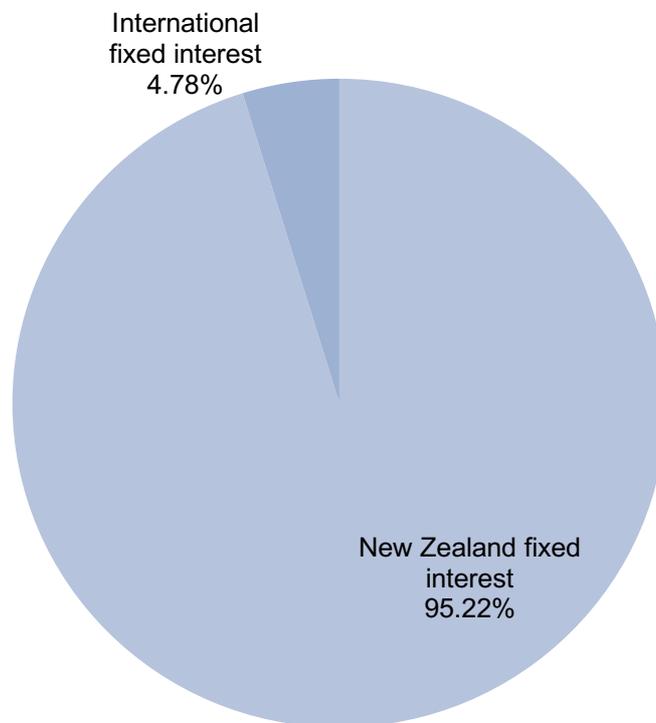

Example of how this applies to an investor

Tara had \$10,000 in the fund on 12 November 2015 and did not make any further contributions. On 30 September 2016, Tara received a return after fund charges were deducted of \$487 (that is 4.87% of her initial \$10,000). Tara paid no other charges. This gives Tara a total return after tax of \$487 for the 10 months and 19 days.

Further information

You can also obtain this information, the PDS and some additional information, from the offer register at www.business.govt.nz/disclose

Notes

- 1 Market index returns (as well as actual returns) have been used to complete the risk indicator, as the fund has not been in existence for 5 years. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund. The risk indicator for the fund uses 4 years and 1 month of market index returns.
