

## Fund Update

### NZ Core Equity Trust

For the quarter ended 31 March 2017.

This fund update was first made publicly available on 28 April 2017.

### What is the purpose of this update?

This document tells you how the NZ Core Equity Trust has performed and what fees were charged. The document will help you to compare the fund with other funds. Smartshares Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

NZ Core Equity Trust aims to provide investors with the benefits of long-term capital growth by investing in a diversified portfolio of financial products listed in New Zealand, with increased exposure to small companies and value companies relative to a market weighted portfolio. Value companies are companies with a low price relative to various financial measures, including book value, cash flow and earnings

Total value of the fund:	\$35,284,714
The date the fund started:	24 July 2014

### What are the risks of investing?

#### Risk indicator for the NZ Core Equity Trust <sup>1</sup>

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2017. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement for the NZ Core Equity Trust for more information about the risks associated with investing in this fund.

### How has the fund performed?

	Past year
<b>Annual return</b> (after deductions for charges and tax)	9.29%
<b>Annual return</b> (after deductions for charges but before tax)	9.39%
<b>Market index annual return</b> (reflects no deduction for charges and tax)	7.19%

The market index annual return is based on the annual return of the S&P/NZX 50 Portfolio Index. Additional information about the market index is available on the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose).

### Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund update started. The last bar shows the average annual return since the fund update started, up to 31 March 2017.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

### What fees are investors charged?

Investors in the NZ Core Equity Trust are charged fund charges. In the year to 31 March 2017 these were:

	% per annum of fund's net
<b>Total fund charges</b>	0.50%
Which are made up of:	
<b>Total management and administration charges</b>	0.50%
Including:	
Manager's basic fee	0.50%
Other management and administration charges	0.00%
<b>Total performance-based fees</b>	0.00%
<b>Other charges</b>	<b>Dollar amount per investor</b>
Not applicable	\$0.00

Investors may also be charged individual action fees for specific actions or decisions (for example, for contributions to, or withdrawals from, the fund). See the Product Disclosure Statement for the NZ Core Equity Trust for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor

Tara had \$10,000 in the fund and did not make any further contributions. At the end of the year, Tara received a return after fund charges were deducted of \$929 (that is 9.29% of her initial \$10,000). Tara paid no other charges. This gives Tara a total return after tax of \$929 for the year.

### Further information

You can also obtain this information, the Product Disclosure Statement for the NZ Core Equity Trust and some additional information, from the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose).

### Notes

- 1 Market index returns (as well as actual returns) have been used to complete the risk indicator, as the Scheme has not been in existence for 5 years. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the Scheme. The risk indicator uses 2 years and 4 months of market index returns.
